Experience

Developer

Fungii Software & Design | September 2023-Present

October 2023 — Present
- Versatile Developer skilled in crafting mobile and web applications
- Proficient in diverse development aspects, encompassing the configuration of Continuous Integration/Continuous Deployment (CI/CD) pipelines, conducting performance reviews, and setting up In-app purchases and payment systems.
- Adept at configuring environments, executing Back-End and Front-End Development, overseeing deployment processes, and managing tasks, risks, and estimations.
- Experienced in the comprehensive management of Back-End and Database operations, client communication, task handling, risk assessment, timeline estimations, and payment processing.
- Demonstrated ability in effectively managing in-app purchases and live location features.
- Well-versed in adhering to international guidelines, ensuring compliance with app store regulations, and adeptly navigating deployments under stringent deadlines.
- Exceptional at task prioritization and maintaining effective communication with clients throughout the development process.

Sucess Cases

Hadalá - Online Store (hadalashop.com)

I developed Hadalá, an innovative e-commerce for my client Hadalá. I created this platform over 5 months, leveraging the following technologies:
- TypeScript: Ensured cleaner, scalable code with static typing.
- Next.js: Implemented server-side rendering for improved performance and SEO.
- Payload CMS: Enabled powerful and customizable content management.
- Zod: Provided robust data validation to enhance security.
- tRPC: Facilitated efficient and secure API development.

The result is a fast, secure, and user-friendly online store, demonstrating the effective use of modern web technologies to create a robust e-commerce solution.

Other Experiences Of Work

Advisor-Manager

Asesoría Vic2 | July 2022 - November 2022

- Customer Support, advice to clients with government procedures
